PROJECT NAME: <PROJECT NAME>

Test Script Name:	Edit Neighborhood Directory App User Profile Information			
Scenario/Purpose:	Edit the profile information of an existing user via the neighborhood directory website. Confirm that information can be successfully entered and committed.			
Prerequisites:	Account exists, and user is successfully logged in.			
Name of Tester:	Cameron	**Date:**	12/01/18	
	Milstead	**Time:**	8:00 AM	

Step	Description	Expected Results	Pass	Fail	N/A	Defect/Comments
1	Select 'Edit Profile' at the top right of the webpage	Browser directs to the Edit Profile page and loads successfully.	X			
2	Select the profile picture icon	Page prompts the user to upload an appropriate photo less than 1MB in size. And 'optional' icon appears to the right of the field.	X			
3	Upload a new photo less than 1MB in size	Browser shows image completed uploading and a green check box appears next to it in the list of profile edit options	X			
4	Select Nickname field and type a 10 alphanumeric character name	Tooltip appears indicated that the maximum amount of alphanumeric characters allowed is 15. And 'optional' icon also appears to the right of the field	X			
5	Remove the existing phone number from the phone number field.	The save icon at the bottom of the page turns gray and is no longer accessible. A red 'required' icon appears to the right of the field. Existing valid Phone number reappears in gray text		X		Previous phone number did not reappear in the form after the 'required' message was shown
6	Add a new valid phone number to the phone number field.	Save icon at the bottom of the page is no longer gray and returns to its previous color. A green check appears next to the phone number field indicating he required condition is met.	X			
7	Modify the current address in the address fields	While typing the address the field should show a 'required' icon on its right side, until the web application validates the address. During this time the save icon again becomes grayed out. After the valid address is entered, the green check will appear and the save icon will revert to its previous state.	X			
8	Select the save button at the bottom of the page to commit the recent changes	A notification will appear in the middle of the page stating that the changes have been made successfully. And then the page will redirect to the profile page in view mode.	X			*The page takes a while to redirect to the profile view. Is this expected behavior or should we look into speeding it up?*
9	Verify that the recent changes are now listed on the profile page	All changes made during the edit phase should be present on the profile page.	X			
10	Log out of the account and back in again and select the profile view.	The recently made changes should still be shown in the profile view.	X
